SUMMARY

Highly motivated Web Developer skilled in React.js and front-end technologies, building dynamic and scalable web applications with clean, efficient code and strong problem-solving abilities.

EDUCATION

- Chandigarh University (BE-CSE), Gharuan, Punjab, 140413 Session: 2021-2025 | CGPA: 7.1
- Intermediate (NEB) | Arniko Awasiya Secondary School Session: 2019-2020 | CGPA: 7.5

SKILLS

Languages: C++, Java, JavaScript, HTML, CSS, PHP
Frameworks & Tools: React, Bootstrap, Node.js, Git, VS Code, Power BI
Databases: SQL, MongoDB
Coding Platforms: LeetCode, Coding Ninjas — 250+ Problems Solved
Relevant coursework: Software Engineering, Data structure, Computer Network, Genetic AI,

EXPERIENCE / TRAINING

- In-house summer training for 8 weeks at Chandigarh University, where I developed dynamic web applications and gained real-hands on experience with modern web technologies.

PROJECTS

- TalkMate** – Friendly and intelligent messaging companion [React.js]
 - Real-time messaging with secure authentication, allowing users to send and receive messages instantly personalized chat sessions.
 - AI-powered chatbot providing instant responses, support, and guidance to enhance user experience and engagement.
- TravelEase** - Your Hassle-Free Travel Booking Companion.
 - Manage bookings, payments, and personalized travel plans seamlessly.
 - Search and book flights, hotels, and travel packages with a user-friendly interface.
- Web application that used AI for summarization PDFs using Langchain, streamlit & OpenAI.

CERTIFICATIONS / ACHIEVEMENT

Web Development with HTML, CSS & JavaScript – COURSERA
The Complete React Js and Redux Course - Build Modern Web Apps – INFOSYS Springboards
Google Project Management Professional Certificate – COURSERA

CodeSprint May 2025 – 2nd Place [link]

- Secured 2nd position in a national coding contest organized by the Practice Panel.

RESEARCH PAPER PUBLICATIONS. [link]

- Efficient Information Digest: Exploring AI-Driven PDF Summarization through Streamlit, Open API, and LangChain.
